

# DotArai System

## Activate two factor authentication

1. Log into DotArai's web site, <https://register.dotarai.com>, with your account then click "Profile".

2. Click the "Two factor authentication" button.

3. Re-login with your password again.

4. Enter your mobile number then click the "Send" button.

## DotArai System

**เปิดใช้งานการยืนยันแบบสองขั้นตอน**

**เบอร์มือถือยืนยัน**

**รหัสยืนยัน**

5. The system will send a confirmation code to your mobile number.

6. Enter the confirmation code received from Step 5, then click the "Activate" button. The system will generate and display the QR code for Step 9. (Do not close this web page until Google Authenticator is activated.)

**รหัสยืนยัน**

7. On your mobile phone, download Google Authenticator application from the link below:  
Google Play Store

<https://play.google.com/store/apps/details?id=com.google.android.apps.authenticator2>

App Store <https://apps.apple.com/th/app/google-authenticator/id388497605>

## DotArai System

8. Run Google Authenticator and tap at the "BEGIN" button.

9. Tap "Scan a barcode" and scan QR code displayed on the web site in Step 6.

10. Google Authenticator application will show the following screen. The blue code will be automatically changed in every 30 seconds so please check for the updated code from Google Authenticator application on your mobile device each time you process the login to DotArai registration system..

11. Click on the "Close" button on a web site.

12. Enter code from Google Authenticator and click "Verify" button to verify that you finish the process with the right code.

Google Authenticator
