How to Register a Domain Name

1. If you already have an account, please login to your account at <https://register.dotarai.com>. If you have never registered for one, please register for a new account by clicking on the Register Domain button on the side panel at <https://register.dotarai.com>.

1. After you have logged into your account, click on the **Domain (2.1)** menu, and click on the **Register Domain (2.2)** menu.

Register Domain

1. Insert the desired domain name that you'd like to register in the empty field(s) **(3.1)** (omit the www in front). Then, choose the desired extension by ticking a check box above the desired extensions **(3.2)** (such as .in.th or .co.th, etc.). After that, click on the yellow **Check(3.3)** button. The system will check for the **availability** of the domain, as shown below.

4. If your domain name(s) are available, select the period (in years) that you would like to register, and click **Next** afterwards.
