

# Transfer Domain

## Transfer Domain.TH

### Transferring a .th domain

1. Login to your account at <https://register.dotarai.com>, or if you don't have an account, please register for one by clicking Sign Up at <https://register.dotarai.com>.

2. Click on the **Domain (2.1)** tab and select **Transfer Domain (2.2)**. Enter the name of the domain that you would like to transfer to DotArai in the empty **Domain: www (2.3)** field and click **Submit (2.4)**.

3. Then, click **next (3)**, as shown below.

The screenshot shows the DotArai website interface for transferring a domain. The top navigation bar has tabs: Home, Profile, Domain (circled in red with '2.1'), Web Hosting, and Shopping Cart. The left sidebar has a menu with options: My Domains, Register Domains, Register .Inu, Privacy Protection, Renew Domains, Transfer Domains (circled in red with '2.2'), WHOIS, and Back Ordered Domains. The main content area is titled 'Transfer Domains' and includes a sub-header 'Transfer your Domain to DotArai'. Below this, there is a text block explaining the transfer process. A form field labeled 'Domain : www.' contains the text 'dotarai.co.th' (circled in red with '2.3'). Below the form field is a link to 'Bulk Transfer <<'. A 'Please note :' section lists several requirements for a successful transfer. A yellow 'Submit' button (circled in red with '2.4') is located below the notes. At the bottom, a table displays the domain 'dotarai.co.th' and its 'Auth-ID'. Below the table is a yellow 'Next >>' button (circled in red with '3').

4. The details of the domain that you would like to transfer would then be displayed. You may pick the duration (in years) to renew your domain by picking the duration from the dropdown menu **(4.1)** and transfer it. (When you transfer your domain, you are required to renew your domain for at least a duration of 1 year, where your only fee will be the renewal fee itself). Then, click on the **Next (4.2)** button.
