- **Supports 2 encryption algorithms**, RSA and DSA within the same SSL certificate.
- **Norton Secured Seal** with Symantec Seal-in-Search maximizes click-through and conversions.
- **Daily website malware scanning** shows customers you are committed to keeping them safe.
- **Includes 24/7 support**, express renewal, and a 30-day money back guarantee.
- **New Symantec SSL Assistant** automatically generates CSRs and installs certificates. Visit the Knowledge Center to download the tool.
- **Plus: SSL Installation Checker, free revoke and replace, and a \$1,500,000 warranty**
-
-

Key Benefits

- **SSL and More in a Single Solution:** Symantec Secure Site helps drive traffic to your site and reduce abandoned transactions. Our premium SSL Certificate, the Norton Secured Seal, Seal-in-Search technology, and daily website malware scanning work together to help assure your customers that your site is safe from search to browse to buy.
-
- **Customers Worldwide Know and Trust the Norton Secured Seal:** The Norton Secured Seal, the most trusted

★★★★★ SSL

mark on the Internet, is viewed over **half a billion times per day on websites in 170 countries**. Symantec Seal-in-Search displays the Norton Secured Seal next to your link on browsers enabled with a free plug-in as well as on partner shopping sites and product review pages.

- **World Class Customer Support and Online Management:** 24/7 customer support and the Symantec Trust Center give you better visibility and control of your SSL certificates and services. With a single sign-in, you can renew, upgrade, buy, activate services or access a backup. Express Renewal and Automatic Renewal Service eliminates CSR requirements, reinstalls and automates payment for up to 3 years.
- Our Secure Site SSL Certificates protects your site from malware scanning and the transfer of any sensitive data. This SSL certificate also reassures your customers that their information is safe, helping to improve click-through and conversions.

Symantec Secure Site with EV SSL Certificates

Attract more customers to your website by displaying the Norton Secured Seal with Symantec Seal-in-Search. The seal is a green address bar that appears in high security browsers. It also displays the Norton Secured Seal with Symantec Seal-in-Search, which helps increase click-through and conversions. The seal is also displayed on partner shopping sites and product review pages.

Key Features

- **Extended Validation** triggers the green address bar in high security browsers.
- **Most certificates issued within 3 business days.**
- **Supports 2 encryption algorithms**, RSA and DSA within the same SSL certificate.
- **Norton Secured Seal with Symantec Seal-in-Search** maximizes click-through and conversions.
- **Vulnerability assessment and daily website malware scanning** help protect your site from hackers.
- **Free 24/7 support**, express renewal, and a 30-day money back guarantee.
- **New Symantec SSL Assistant** automatically generates CSRs and installs certificates. Visit the Knowledge Center to download the tool.

Plus: SSL Installation Checker, free revoke and replace, and a \$1,750,000 warranty

[See how EV appears in your browser](#)

Key Benefits

- **SSL and More in a Single Solution:** Symantec Secure Site with EV includes an SSL certificate, daily website malware scanning and vulnerability assessment to secure your site and help defend against attacks. The green address bar, Norton Secured Seal and Seal-in-Search technology assure your customers that your site is safe from search to browse to buy.
- **Customers Gain Confidence with the Green Address Bar:** Online shoppers recognize the green address bar as an easy and reliable way to verify the site identity and security. Only SSL certificates with EV trigger web browsers to display your organization's name in a green address bar. Online shoppers are more likely to enter their credit card and/or other confidential financial information into a website with the SSL EV green bar.
- **Customers Worldwide Know and Trust the Norton Secured Seal:** The Norton Secured Seal, the most trusted mark on the Internet, is viewed over **half a billion times per day on websites in 170 countries**. Symantec Seal-in-Search displays the Norton Secured Seal next to your link on browsers enabled with a free plug-in as well as on partner shopping sites and product review pages.
- **World Class Customer Support and Online Management:** 24/7 customer support and the Symantec Trust Center give you better visibility and control of your SSL certificates and services. With a single sign-in, you can renew, upgrade, buy, activate services or access a backup. Express Renewal and Automatic Renewal Service eliminates CSR requirements, installs and automates payment for up to 3 years.

Secure Site with EV SSL Certificates triggers a green address bar to reassure your customers that you are using Extended Validation and providing up to 256-bit encryption.
