

Thawte SSL Certificates Package

SSL123 Certificates

Domain Validation in One Business Day or Less

Thawte® SSL123 Certificates have the fastest issuance time to quickly enable encrypted connections to your web server. This domain-only validation SSL Certificate provides up to 256-bit encryption for web-based applications that are not at risk for phishing or fraud. SSL123 Certificates include domain authentication, the [Thawte® Trusted Site Seal](#), free reissues, and a 30-day money back guarantee.

- **Free** unlimited licensing
- Most certificates issued in **minutes**
- **Create a secure, private connection** for TLS, server to server communications, mail and FTP servers, and other applications with issuance in about one business day or less (depends on the availability of domain name registration information).
- **Protect confidential information** exchanged during secure sign-in and self-service interactions with up to 256-bit SSL encryption and 500k USD warranty.
- **Buy, renew, and manage** certificates with a single, secure sign-in to Thawte® Certificate Center.
- **Save time and money** by purchasing multi-year [SSL certificates](#) and additional licenses when securing multiple servers for a single domain (co-location, clustering, load balancing servers, etc.).

SSL Web Server Certificates

Assures Users of Your Site's Security and Identity

Thawte® SSL Web Server Certificates secure confidential information exchanged online and confirm your site's identity to employees, business partners, and other users. When users click the Thawte® Trusted Site Seal or view certificate details, your organization name appears and shows that Thawte, a trusted certificate authority, has verified the site's identity. SSL Web Server

★★★★★ SSL

Certificates include full organization authentication, the [Thawte Trusted Site Seal](#), free reissues, and a 30-day money back guarantee.

SSL Web Server Certificates with EV

Establishes Trust and Security at a Glance

Thawte® SSL Web Server Certificates with EV enable the most visible security indicator: the green address bar in high-security browsers, assuring users that your site is secure and your identity has been authenticated to the industry's highest standard. When customers see the green address bar and the Thawte® Trusted Site Seal, they gain the confidence to complete their transaction. SSL Web Server Certificates with EV include Extended Validation, the [Thawte Trusted Site Seal](#), free reissues, and a 30-day money back guarantee.

- **Free** unlimited licensing
- Most certificates issued in 1-3 days
- **Increase revenue potential and reduce fraud** with the green address bar and the Thawte Trusted Site Seal, which is available in 18 languages.
- **Protect confidential information** exchanged during shopping, banking, secure sign in, and account self-service interactions with up to 256-bit SSL encryption and a 1.5M USD warranty.
- **Buy, renew, and manage** certificates with a single, secure sign-in to Thawte® Certificate Center.
- **Secure your competitive advantage** with [SSL](#) from Thawte, a globally recognized certificate authority with root certificates included in over 99% of browsers.
- Save time and money by purchasing multi-year SSL certificates.
- **Add up to 25 additional domain names** to one certificate when you purchase a [SAN Certificate](#) with a Thawte SSL Certificate.

Wildcard SSL Certificates

Secure Multiple Subdomains

Thawte Wildcard SSL Certificates secure multiple subdomains with a single [SSL certificate](#), reducing management time and cost. Using the wildcard notation(an asterisk and period before your domain name) allows you to extend security to different subdomains based on your top-level domain name.

For example, if your company runs yoursite.com, a Wildcard certificate could also secure news.yoursite.com, blog.yoursite.com and shop.yoursite.com.

🔒🔒🔒🔒🔒 SSL

Thawte Wildcard SSL Certificates include full organization validation, the [Thawte Trusted Site Seal](#), free reissues and a 30-day money-back guarantee.

- **Free** unlimited licensing
- Most certificates issued in **one day**
- **Save time and money** with fewer SSL certificates to manage and purchase.
- **Create a secure, private connection** between a web browser and web server, including gateways, web forms, mail and FTP servers, and VPNs with up to 256-bit SSL encryption and a 1.25M USD warranty.
- **Secure your competitive advantage** with SSL from Thawte, a globally recognized certificate authority with root certificates included in over 99% of browsers.
